NORTHERN POWER AND SAFETY SOLUTIONS, LLC Launches Innovative Lockout Tagout Identification System for Industrial Safety

Revolutionary solution enhances compliance and efficiency in energy isolation procedures

[Brunswick, Maine] – January 14, 2026 – NORTHERN POWER AND SAFETY SOLUTIONS, LLC, a leading innovator in industrial safety solutions, announces the release of its groundbreaking **Lockout Tagout Identification System**, designed to streamline OSHA-compliant lockout/tagout (LOTO) processes and improve workplace safety across manufacturing and industrial environments.

The new LOCKOUT ID™ system introduces **smart identification technology** that allows maintenance teams to quickly verify authorized personnel, equipment status, and lockout points using durable, scannable tags integrated with a secure digital platform. This advancement reduces human error, accelerates compliance audits, and ensures safer energy isolation procedures.

Key Features and Benefits

- **Smart QR-Enabled Tags:** Each tag links to a secure cloud-based profile for real-time verification.
- **Customizable Templates:** Adaptable to any industrial environment or equipment type.
- **Enhanced Compliance Tracking:** Digital logs for OSHA and ISO standards.
- **Durable Construction:** Engineered for harsh industrial conditions, including chemical exposure and extreme temperatures.

"LOCKOUT ID™ is redefining how companies approach lockout/tagout compliance," said Bryan Stewart, Founder at NORTHERN POWER AND SAFETY SOLUTIONS, LLC. "Our system not only improves safety but also saves time and reduces administrative burden."

Availability

The LOCKOUT ID™ system is available now for North American industrial facilities. For more details, visit www.lockoutids.com

About NORTHERN POWER AND SAFETY SOLUTIONS, LLC

NORTHERN POWER AND SAFETY SOLUTIONS, LLC is a North American-based OEM specializing in innovative safety solutions for industrial environments. Our mission is to deliver cutting-edge products that protect workers and simplify compliance processes.
